

Governor's Commission for a Drug Free Indiana

A Division of the

Comprehensive Community Plan

County: Pulaski

LCC: Pulaski County Drug Free Council, Inc.

Date: April 2006

Contact: Chris DePoy

Address: Pulaski County Ext Office; 125 S Riverside Drive

City: Winamac

Zip Code: 46996

Phone: 574-946-3412

Email: cdepoy@purdue.edu

County Commissioners:

Terry Young, Mike Tiede, and Richard Sommers

Address: c/o Pulaski County Auditor; 112 E Main St Rm 200

City: Winamac

Zip Code: 46996

Plan Summary

Mission Statement: The Pulaski County Drug Free Council is the Local Coordinating Council of the Governor's Commission of a Drug Free Indiana. We strive with the concerns of all our population but especially our youth, in the area of Drug and Alcohol and Tobacco Abuses in this community.

Reaching the community in a helpful way in that Pulaski County may continue to be a safe and healthy place to live and raise families is our goal. The areas of Prevention/Education, Law Enforcement/Justice, and Treatment are the target areas to receive programs funded by the Drug Free selected monies.

History: Since our first meeting in 1989 the Pulaski County LCC of the Governor's Commission has retained the interest of the area. Judges, Prosecutors, social service professionals, as well as law enforcement agents, attorneys, leaders in business, educators, agriculture, retail, clergy and senior citizens have been a part of the mix. This group is functioning well with a membership mailing list of 35 representing a cross section of our community. The monthly meetings are lively with attendance at 15 or less.

The county population is about 13,800. We have four towns, two public school corporations (plus one elementary school which is a part of a system in Marshall County), four weekly newspapers, many churches, many social service agencies and three major state highways. The poverty level in Pulaski County is 10%, unemployment rate is 5%, 30% of the population live in town, and 98% are classified as "white alone" race. The industry base of Pulaski is primarily agricultural with small to mid level manufacturing and small business present. The rural setting is conducive to drug abuse activity. Marijuana grows wild (and not so wild) along many country roads and is allegedly hidden in cornfields. Meth labs have sprung up in abandoned buildings and vehicles, rural ditch banks, and in private homes. The programs we have recommended to fund through the LCC have for the most part been successful and used to encourage, educate, or help our citizens in the pursuit of healthy life choices.

Summary of the Comprehensive Community Plan: In 2005, the Pulaski County Drug Free Council (PCDFC) continued to operate according to its Comprehensive Plan submitted and approved in 2004. It focused on four main problems statements:

- Alcohol, cigarette, and drug use continues to be wide spread among Pulaski County youth.
- Coalition membership has remained stable; however, active members have been difficult to find. Lack of members continues to restrict our accomplishments.
- Lack of knowledge and educational materials to Pulaski County parents prevents them from effectively talking with their children about drugs. This leads to increasing juvenile drug use and grows into adult usage.
- Law enforcement and justice programs in the county are overwhelmed with the demands on the system created by substance abusing offenders.

The Council funded or provided many programs and activities that addressed these issues.

In calendar year 2004, the Pulaski County Auditor's office deposited \$16,025.14 into the LCC's Drug-Free Community Fund from fees collected and \$4983.04 was rolled over from unused 2003 funds leaving the Council with \$21,008.18 total. \$3,111 was allocated for administrative costs leaving \$17,897.18 available for programming.

In 2005, 14 grant applications were received requesting \$20,605. The Council was able to award all the applicants all or part of their request allocating \$16,105 to these. The awarded funds were broken down into three categories: Prevention; Treatment; and Law Enforcement. The breakdown of funds awarded by category is:

- Prevention - \$8,605 (50%)
- Treatment - \$4,000 (26%)
- Law Enforcement - \$3,500 (24%)

The information in this report details (updates) the Council's efforts toward our 2004 Comprehensive Plan goals.

Note: When preparing this update report, the Council identified several weaknesses that we will address when creating our next Comprehensive Plan.

Membership List

County LCC Name: Pulaski County Drug Free Council, INC.

Name	Organization	Race	Gender	Category
Arlene Metzger	West Central School Corp	White	F	Medicine
Beth Siemens	West Central School Corp	White	F	Education

Marcia Eckstein	Girl Scouts	White	F	Education
Jon Duhnovsky	Church of the Heartland	White	M	Religion
Deborah Moss	Meth Anonymous Support Group	White	F	Treatment

Problem Identification

Problem Statement #1: Alcohol, cigarette, and drug use continues to be wide spread among Pulaski County youth.

Supportive Data:

A study of high school students from area school districts in Pulaski County suggests the following in reference to use of alcohol, cigarettes, and marijuana.

As of April 2004, Twenty-nine percent of juveniles in the out-of-school suspension room were there for drug, alcohol, and tobacco offenses. These offenses combined are the most common violation resulting in assignment to out-of-suspension room.

Year 1 Update:
<ul style="list-style-type: none">During the calendar year of 2005 the out-of-school suspension program saw 82 students. Of those 82 students, 24 - (29.3%) were assigned for Drug/Alcohol/Tobacco/related Paraphernalia offenses.
Year 2 Update:
<ul style="list-style-type: none">
Final Update:
<ul style="list-style-type: none">

Objectives:

- A. Continue drug awareness programs for students in both school corporations.
- B. Support and assist funding for parenting programs implemented by schools and other related agencies within the county.
- C. Promote and fund counseling and intervention programs for at-risk youth.
- D. Develop projects that will heighten the awareness of students and families to the dangers and consequences of drug use and the promotion of healthy alternatives.

Year 1 Update:

- A. Drug Abuse Resistance Education (DARE) held at all 3 elementary schools in 05/06 school year by Sheriff's Dept. The West Central schools offered the following programs for the 05/06 year: The Just Say No Club for 4th grade; Red Ribbon Week activities for K-12; and S.C.O.P.E. (formally S.A.D.D.) club grades 9-12. The county juvenile court judge sponsored a variety of projects and activities that promote drug awareness and provide positive alternatives to drug use in 2005. The West Central High School received funds for two convocations (elementary and middle/high) by Dr. Mann Spittler. He spoke on his daughter's addiction to heroine and of her death due to overdose. The Mental Health Association of Fulton County hired Brett Eastburn to visit schools in the area to speak on, self-improvement and drug-prevention. Note: Winamac Community High School has a SADD program, but did not seek funding from the Drug Free Council.
- B. No action taken
- C. Both Winamac Community and West Central after prom committees received funds in 05/06 to provide supervised, safe, and drug free environments for students to continue their social activity after their proms. The Pulaski County Extension Office Received help to purchase equipment used to deliver its programming which is often a positive alternative to drugs and at-risk behavior. The Therapeutic Crisis Intervention (TCI) Team at West Central is called into situations where young people are heading to, or already in, a crisis state. The TCI team has been trained to de-escalate crisis situations with minimum amount of force and maximum amount of care. It's primary goal is to bring the young person back to base-line behavior and then prepare them to re-enter the classroom ready to learn. This group received support to purchase communications equipment. Culver Community Youth Center offered its "Putting Together the Pieces Program" in the Monterey Elementary School. This program contracted a specialist to provide direct services for the students that have been identified as at-risk and their families.
- D. The Council entered a float into 2 community parades that promoted awareness of driving while impaired and wearing seatbelts. Members walking along side the float distributed ATOD information to the parade viewers. The Council also assisted the Sheriff's Dept in a county fair activity in which participants tried to drive a golf cart while wearing the "impaired vision goggles". ATOD info was also distributed at this event.

Year 2 Update:

-

Final Update:

-

Goals:

Decrease in number of juveniles suspended from school for drugs, alcohol, and tobacco. The effectiveness of activities /programs will be measured by numbers of children /families who participate in Drug Free Council programs throughout the year.

Year 1 Annual Benchmarks:

- The number of juveniles suspended from school for drugs, alcohol, and tobacco has not decreased. The percentage of those sent to the program for these offences has remained constant however. We have found that it is not feasible to measure the number of children and families that participate in our events and programs. It can be assumed that we had more participants in 2005 as we had more programs and events than in past years.

Year 2 Annual Benchmarks:

-

Final Report:

-

Problem Statement #2: Coalition membership has remained stable; however, active members have been difficult to find. Lack of members continues to restrict our accomplishments.

Supportive Data:

The monthly attendance at regular meetings continues to fluctuate based on change in meeting locations month to month. We are always searching for additional members to take an active role. Active members and non-members will increase our support and community awareness.

Year 1 Update:

- In 2004 average meeting attendance was 9 and in 2005 average attendance was 11. This is a 22% increase. Also, it has been observed that attendance at LCC sponsored events was also higher in 2005 and on the rise.

Year 2 Update:

-

Final Update:

-

Objectives:

- A. Continue advertising and increase media attention to help inform the public of our goals, accomplishments, desires, and needs.
- B. Enforce a newly written mandate for those groups applying for funding to have representation at monthly meetings to assist the LCC with word of mouth advertising.
- C. Contact county officials informing them of the lack of attendance from their offices and notify them of the importance of their input.
- D. Advertise for members and attendance through posters and flyers in public places.

- E. Develop and distribute an LCC brochure in English, as well as, Spanish.
- F. Part of receiving grant money the person or agency requesting the money has to attend 5 out of 10 meetings per year, as well as, report 2 times a year on what they are spending the money on.

Year 1 Update:

- **A. The Council submitted 4 articles to the newspapers about our grants and other events in 2005. The newspapers' community calendars included Council meeting announcements.**
- **B. Mandate discontinued due to equal opportunity/access considerations and conflict of interest problems.**
- **C. County offices received meeting notices. Also, the new commissioner was mailed a letter of invitation to join. 2 Commissioners attended meetings for the first time in 2005. The Sheriff, Juvenile Circuit Court Judge, and the Prosecutor are all members of the Council.**
- **D. No action taken**
- **E. Brochures were produced and available at LCC events, but not widely distributed.**
- **F. Practice discontinued due to equal opportunity/access considerations and conflict of interest problems.**

Year 2 Update:

-

Final Update:

-

Goals:

Increase membership by at least 2 to 3 active members per year. New members should include a variety of professionals, as well as community members representing the entire community.

Year 1 Annual Benchmarks:

- Met. In 2005, we had 8 people visit our meetings with 3 of those returning on a regular basis. These 3 include 1 student, 1 commissioner, and 1 treatment.

Year 2 Annual Benchmarks:

-

Final Report:

-

Problem Statement #3: Lack of knowledge and educational materials to Pulaski County parents prevents them from effectively talking with their children about drugs. This leads to increasing juvenile drug use and grows into adult usage.

Supportive Data:

In April 2004, Pulaski County currently has 43 juveniles on probation. Of those 43 juveniles:

- 9 are on probation for Minor Consuming of Alcohol
- 5 are on probation for Drug Possession or use
- 1 is on probation for both drug and alcohol offenses

Year 1 Update:

- In 2004, 53 juveniles were placed on probation. Of those, 10 or 19% were placed there for drug and alcohol offenses. By November 28th, 2005, 56 students had been placed on probation - 24 or 43% of those for drug and alcohol offenses. Although this is only a partial year fro 2005, it is clear that both the number on probation and the percentage of those there for drug and alcohol offenses rose in 2005 from 2004.
- Note: In working on this update, we discovered that supportive data does not correspond to the problem statement. This will be rectified in our next comprehensive plan.

Year 2 Update:

-

Final Update:

-

Objectives:

- A. Provide information pamphlets to schools and make them available to parents.
- B. Take advantage of media opportunities to make parents aware of the resources that are available.
- C. Increase the amount of the same type of material available at booths at local health fairs, county fairs, and town festivals.
- D. Provide educational materials to the courthouse and juvenile probation to distribute to parents for juvenile offenders.
- E. Place monthly ad in papers and partner with local businesses and attorneys to pay for monthly ads.

Year 1 Update:

- A. Free pamphlets were attained and given to both Winamac and West Central for distribution as they desired. These included: “Keeping Youth Drug Free”; “Suspect Your Teen is Using Drugs or Drinking?”; and “Keeping Your Kids Drug-Free”.
- B. No action taken
- C. We provided ATOD information at the Sheriff’s booth during the 2005 County Fair. ATOD information was also distributed at 2 community 2005 parades.
- D. Materials were made available to the Juvenile Circuit Court Judge.
- E. No action taken.

Year 2 Update:

-

Final Update:

-

Goals:

Parents will become aware of the increase in juvenile offenses and their need to assist law enforcement in educating our teens. Make teens aware of the potential risks associated with drinking and drugs.

Year 1 Annual Benchmarks:

- This is another weakness we discovered when updating the plan (which will be address in new one). This goal is not measurable. However it is a fact that more information was distributed in 2005 than in 2004.

Year 2 Annual Benchmarks:

-

Final Report:

-

Problem Statement #4: Law enforcement and justice programs in the county are overwhelmed with the demands on the system created by substance abusing offenders.

Supportive Data:

The following information is the number of arrest pertaining to alcohol made by Pulaski County law enforcement agencies in the calendar year January 1, 2003 through December 31, 2003.

27 arrests for Public Intoxication

76 arrests for OVWI

33 arrests for miscellaneous (Minor consuming, minor possession, and contributing to a minor)

Year 1 Update:

- The following information is the number of arrest pertaining to alcohol made by Pulaski County law enforcement agencies between January 1, 2005 and December 31, 2005: 32 arrests for Public Intoxication; 48 arrests for OVWI; and 27 arrests for miscellaneous (Minor consuming, minor possession, and contributing to a minor)

Year 2 Update:

-

Final Update:

-

Objectives:

- A. Support the development of drug courts for both teens and adults.
- B. Advocate for additional training for officers and justice personnel related to substance abuse issues and resources.
- C. Support Alcoholic's Anonymous programs in the County.
- D. Encourage proven prevention programs/strategies be used in the County OSS room.
- E. Provide appropriate equipment and materials for local police and justice agencies for programs/services related to substance abuse reduction.

Year 1 Update:

- A. No action taken.
- B. No action taken.
- C. No action taken.
- D. The Pulaski Memorial Hospital's Alternative Education program and Out of School Suspension (OSS) Room is a valuable asset to the Probation Department. The department frequently placed student offenders or those at-risk for drug use in the Alternative Education program providing direct supervision and preventing long-term placement in detention centers. The Council supported this program in 2005.
- E. The Sheriff's Department received funds in 2005 to help with its K-9 unit which is a valuable asset in its fight against drugs. Four County Counseling Center provided programs to jailed offenders. Topics include the psychology of addiction and anger management.

Year 2 Update:

-

Final Update:

-

Goals:

Police and justice organizations within the county will be able to encourage and support positive outcomes for substance abusing offenders, thereby reducing caseloads, recidivism, and the number of domestic violence cases of the long term.

Year 1 Annual Benchmarks:

- Again, we find our goals are not measurable and do not directly correspond to the supportive data. To our knowledge, case loads have not been reduced nor has recidivism. The North Central Indiana Rural Crisis Center reported that in 2004 they had 60 Total Clients, 54% of incidents resulted in drug/alcohol usage, and 11% were from Pulaski County. In 2005, they had 56 total clients, 64% of incidents resulted in drug/alcohol usage, and 8% from Pulaski County. This indicates that although the total number of domestic violence cases has decreased, the number of those cases that resulted in drug/alcohol usage rose slightly.

Year 2 Annual Benchmarks:

-

Final Report:

Please attach the County's Fiscal Report for review!

Next Annual Update Due: April 2007

Next Comprehensive Community Plan Due: April 2007

Date of Community Consultant Review:

Disclaimer:

You agree that the information provided within this Plan is subject to the following Terms and Conditions. These Terms and Conditions may be modified at any time and from time to time; the date of the most recent changes or revisions will be established by the Commission and sent electronically to all Local Coordinating Councils.

Terms and Conditions:

The information and data provided is presented as factual and accurate. I hereby acknowledge that I can be asked to submit proper documentation regarding the data submitted within the Plan. Failure to do so could result in a “denied approval” by the Commission under IC 5-2-6-16.

The Local Drug Free Communities Fund must be spent according to the goals identified within the plan. I hereby acknowledge that I can be asked to submit proper documentation regarding funds that are collected, allocated, and disbursed within the county. Failure to do so could result in a “denied approval” by the Commission under IC 5-2-6-16.

Initials: lcd

**Pulaski County Drug Free Council
Local Drug Free Communities Fund**

(1) Amount deposited into the drug-free communities fund during the most recent, complete calendar year, per the County Auditor:

- In 2004 the Pulaski County Auditor's office deposited \$16,025.14 into the LCC's Drug-Free Community Fund from fees collected.
- \$4,983.04 rolled over from unused 2003 funds.
- \$21,008.18 total amount available for 2005 programs and administrative costs.
- \$3,111 allocated for administrative costs leaving \$17,897.18 available for programming.

(2) Fund allocation by category, including a brief description of the purpose of the grant funding:

CATEGORY	APPLICANT/PROJECT & PROGRAM DESCRIPTION	AMOUNT REQUESTED	AMOUNT AWARDED
Education/Prevention	Sheriff Paul D. Grandstaff/ DARE program for 5 th grade at all 3 schools	\$3,000	\$3,000
Education/Prevention	Peach Roth/ Winamac Community High School After Prom	\$1,000	\$1,000
Education/Prevention	E. Anne Ketchen/ West Central Just Say No Club	\$365	\$365
Education/Prevention	Mrs. Arlene Metzger/ West Central Red Ribbon Week	\$500	\$500
Education/Prevention	C. Joan Seager/ West Central TCI Team Communications Equipment	\$340	\$340
Education/Prevention	Michael Reetz - Purdue Extension Office/ Program Equipment	\$750	\$750
Education/Prevention	Principal Don Street/ West Central School Convocations	\$400	\$400
Education/Prevention	Beth Siemens/ West Central After Prom	\$1,500	\$1,500
Education/Prevention	Joy Holloway/ Fulton County Mental Health Association Convocation Speaker for area schools	\$1,000	\$500
Education/Prevention	Judge Michael Anothry Shurn/ Circuit Court Juvenile Alternatives Programs	\$250	\$250
Treatment/Intervention	Tracy Shorter - Culver Community Youth Center/Putting Together the Pieces program	\$2,000	\$2,000
Treatment/Intervention	Patricia Pearce - Four County Counseling Center/ Jail Program	\$3,000	\$2,000
Justice/ Law Enforcement	Dan McDonald/ Pulaski Memorial Hospital Alternative Education (Out-of-School Suspension) Program	\$5,000	\$2,000
Justice/ Law Enforcement	Sheriff Paul D. Grandstaff/ Department K-9 Program	\$1,500	\$1,500
	TOTALS	\$20,605	\$16,105

(3) Describe the grant process and requirements for the grantees:

PRIORITIES FOR GRANT FUNDING

The Pulaski County Drug Free Council is accepting requests for funding of XXXX programs. These programs must meet one or more of the objectives outlined below:

Prevention/ Education	<p>Programs, activities, services or materials aimed at deterring individuals from the use or abuse of alcohol, tobacco and other drugs. These may include:</p> <ol style="list-style-type: none">1) Informational programs providing knowledge and increased awareness;2) Educational programs that build skills through structured learning processes;3) Programs that build personal resistance to the use of alcohol and tobacco;4) Programming that gives healthy alternatives to the use of alcohol, tobacco and other drugs.
Treatment/	<p>Services for those in need of recovery due to the use of alcohol, tobacco, and other drugs. Treatment providers are required by Indiana law to be appropriately certified.</p>
Intervention	<p>Associated with excessive or inappropriate use of alcohol and/or drugs. Service could cover a spectrum of activities including identification, intervention, referral and assessment, as well as a continuation of treatment services. These interventions could range from outpatient programs or community-based intervention and treatment services, to inpatient, residential and supported living or halfway house settings.</p>
Justice/ Law Enforcement	<p>Efforts that deal with the legal consequences of substance abuse. This could include local crime prevention, law enforcement, prosecution, probation or court and correctional services.</p>

II. ELIGIBILITY REQUIREMENTS

- Any individual, group or organization may submit a grant application for a new or existing program serving Pulaski County.
- Each grant application must satisfy at least one of the above objectives and comply with all requirements as established by the PCDFC.
- A representative must be available to meet with the PCDFC Grant Approval Committee to discuss the proposal.
- Grant recipients will be required to report their usage of funds and their program's results to the PCDFC.

- Funds not utilized during the grant period must be relinquished to the PCDFC.
- Grant recipients are *encouraged* to attend PCDFC meetings.

SELECTION PROCESS

The original and five copies of the application must be submitted in a sealed envelope to the: Grant Application Committee; PO Box 263; Winamac, IN 46996 and be postmarked no later than September XX, XXXX. Applications received after this time will be returned unopened.

Upon receipt of eligible applications, the PCDFC Grant Approval Committee will review the applications for compliance with the instructions as outlined. The Grant Approval Committee will set a time and place for a needs assessment interview for each proposal.

The PCDFC will have complete discretion regarding the recommendation of grant awards. Grant applications are approved by the PCDFC and the Pulaski County Council. Recipients will receive funding by March, XXXX. All grant applicants will also receive written notice of application status prior to January 31, XXXX.

CONTACT INFORMATION

Questions or concerns regarding the PCDFC or any information contained within this application can be directed to Chris DePoy at (574)946-3412 or cdepoy@purdue.edu.

All Grant Applications must be sent to:
Pulaski County Drug Free Council
Grant Application Committee
PO Box 263
Winamac, IN 46996

STATEMENT OF EQUALITY

The PCDFC recognizes that alcohol, tobacco and other drugs affect every member of the community, regardless of age, race, religion, gender, ethnicity, sexual orientation, physical or mental ability, or financial status. While programs may be targeted toward specific sub-populations, this plan is designed to encourage the community through its many different organizations to meet the needs of all individuals.

(4) Total number of dollar amount of grant requests in each of the three categories:

CATEGORY	GRANTS RECEIVED	DOLLARS REQUESTED	GRANTS APPROVED	DOLLARS APPROVED
Prevention	10	\$9,105	10	\$8,605
Treatment	2	\$5,000	2	\$4,000
Law Enforcement	2	\$6,500	2	\$3,500
Totals	14	\$ 20,605	14	\$16,105

(5) Provide administrative expenses:

Catagoty	Entity Paid	Date	Amount
Administrative	Richard Harris Coordinator	6/23/2005	\$250.00
Total Spent			\$250.00
Advertising	Express	1/25/2005	\$9.60

Costs	Richard Harris	10/26/2005	\$85.86
Total Spent			\$230.28
Promotional	C. D. Embroidery	6/23/2005	\$52.47

Promotional	Positive Promotions	6/23/2005	\$144.04
Total Spent			\$196.51
Total Spent 2005			\$1,164.29

(6) Provide amount and explanation of any unused dollars from previous years: We had \$17,897.18 available for 2005 programming. We awarded \$16,105.00. Leaving us a carry over of \$1,792.18. We typically have a small carry over each year, because we award grants and budget in October and/or November and use the amount on hand at that point instead of estimating how much will be deposited through the end of the year. In 2005, we only spent \$1,164.29 of our \$3,111.00 admin budget. This is due mostly the fact we have not had a full-time paid coordinator.
